## PROFESSIONAL SUMMARY

---

Result-driven Full Stack Developer (MERN) with 1.5+ years of experience building, deploying, and maintaining scalable web applications using MongoDB, Express.js, React.js, and Node.js. Adept at architecting robust RESTful APIs, crafting responsive UI components, and ensuring seamless integration between frontend and backend systems. Strong command over state management, authentication, database optimization, and Agile development practices. Passionate about clean code, performance tuning, and delivering user-centric solutions that align with business goals.

## SKILLS

---

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS
- **Frontend:** React.js, Redux, React Router, Tailwind CSS, Bootstrap, Angular, Bootstrap
- **Backend:** Node.js, Express.js, RESTful API Design, JWT, OAuth 2.0
- **Databases:** MongoDB, Mongoose, Aggregation Pipelines, Indexing
- **Testing:** React Testing Library, Mocha
- **Tools & Platforms:** Git, GitHub, Bitbucket, VS Code, Figma, Postman, CI/CD, Agile, Scrum

## WORK EXPERIENCE

---

### Associate Web Developer

Sumedha Softtech Pvt. Ltd., Jaipur, India

Dec 2023 – Apr 2025

- Built and maintained **5+ full-stack applications** with React.js, Node.js, Express.js, and MongoDB, serving **over 2,000 daily active users**.
- Improved page load speed by **35%** by implementing lazy loading, efficient API pagination, and code splitting.
- Designed modular **React.js** components and optimized **Redux** state management, reducing re-renders by **40%** and improving app responsiveness.
- Developed secure RESTful APIs, decreasing authentication failures by **50%** through robust **JWT-based authentication** and input validation.
- Optimized MongoDB queries and schema design, reducing database read/write latency by **20%** for high-traffic endpoints.
- Automated deployments using Git and CI/CD pipelines, cutting release time by **30%** and improving production stability.
- Coordinated with cross-functional teams and participated in **daily Agile stand-ups**, ensuring **95% on-time sprint delivery**.

## PROJECTS

---

### Zendult – Fleet Management & Field Services Platform

- Developed a **real-time fleet dashboard** in React.js with Redux, enabling live vehicle tracking and boosting client operational efficiency by **45%**.
- Engineered RESTful APIs for fleet and task management, handling **10,000+ API requests per day** with optimized response times via caching and async operations.

- Integrated MongoDB with Mongoose for robust data operations and designed aggregation pipelines for advanced reporting, improving report generation speed by **50%**.
- Improved backend scalability by implementing load balancing and error handling, resulting in **99.9% API uptime**.

## EDUCATION

---

### **Bachelor of Technology – Computer Science & Engineering**

Rajasthan Technical University | GPA: 8.6/10

Graduated: May 2024
