PROFESSIONAL EXPERIENCE

Junior MEAN Stack Developer

Aug 2025 – Sep 2026

Rudra Innovative Software, Mohali, India

- Built AI-powered features for a multi-module SaaS platform (project management, documentation, forms, ATS, scheduling, CRM-style workflows), including an AI chat assistant, intelligent document and task search, automatic summaries and daily stand-up digests.
- Contributed to a Natural Language Automation Builder that lets users create workflow automations from plain-language instructions.
- Developed responsive, reusable frontend features with Angular, React and TypeScript, integrated with Node.js/Express.js REST APIs and MongoDB.
- Integrated ClickUp, Google OAuth, Auth0 and Stripe; implemented real-time updates with WebSockets and application-level caching with Redis.
- Wrote unit tests, documented APIs with Swagger/OpenAPI, and debugged and resolved production issues while supporting deployments.
- Worked in an Agile team with designers, backend developers, QA and architects; took part in code reviews and sprint planning.

Software Developer

Apr 2024 – Apr 2025

Sumedha Softtech Pvt. Ltd., Jaipur, Rajasthan, India

- Developed and maintained full-stack web applications using React.js, Angular, Node.js, Express.js and MongoDB.
- Built RESTful APIs and reusable, responsive frontend components, and integrated them with backend services.
- Implemented authentication flows, database operations, API integrations and business logic, with data modelling in MongoDB.
- Tested APIs with Postman, fixed defects and resolved production issues using Git-based workflows.

Web Developer Intern

Dec 2023 – Apr 2024

Sumedha Softtech Pvt. Ltd., Jaipur, Rajasthan, India

- Built responsive interfaces with JavaScript, Angular, HTML and CSS, and worked on Node.js, Express.js and MongoDB backend functionality.
- Assisted with debugging, testing and maintenance, and connected frontend applications to backend APIs.

PROJECTS

AutoApply AI – AI-Powered Job Application Automation SaaS

Angular 17+, TypeScript, Node.js, Express.js, MongoDB, Groq LLMs, Stripe, REST APIs, Railway, Vercel

- Designed and built a cloud-based SaaS platform that automates job discovery, application workflows and career tasks.
- Developed an Angular 17+ TypeScript frontend integrated with modular Node.js/Express.js REST APIs for users, resumes, jobs, automation, subscriptions and notifications.
- Integrated Groq LLMs for AI-powered job matching and resume tailoring.
- Implemented authentication, notifications, Stripe subscription billing and admin functionality; deployed on Railway and Vercel.
- Built a multilingual interface supporting 10 languages.
